

## Triplt Pro

### Making travel smart

After your business trip is booked, managing all the trip details – from air, hotel, dining reservations and more – can be time consuming and disorganized. Plus, you need access to information about flight delays, cancellations, gate changes and your baggage claim location. You want to know about weather, driving directions and maps, and identify your loyalty number for your hotel. These needs can turn a simple trip into a hassle.

Triplt Pro is like giving every employee their own personal travel assistant that keeps them on the go, in the know and connected at all times. Plus, it gives your organization control of corporate data, provides unmatched visibility into your managed and unmanaged travel, and continues to drive cost savings throughout the travel and expense process.

#### How It Works

Concur automatically delivers all relevant content for authorized travelers – like flight, hotel and rental car information – and synchronizes with Triplt. Plus, you can forward other e-mail confirmations like dining reservations, activities and more to [plans@tripit.com](mailto:plans@tripit.com). These two options work together, which means you have all your travel data in one, easy-to-access itinerary. Turning chaos into order, Triplt makes it easy to:

- Organize trip details into one master online itinerary – even if arrangements are booked on multiple sites
- Incorporate dining reservations, meetings, activities and more into a master itinerary
- Automatically include maps, driving directions and weather forecasts in the master itinerary
- Safely access travel plans online, easily share with friends and family and synchronize with desktop and mobile calendars
- Go mobile with free apps for iPhone®, iPad®, Android™ and BlackBerry®

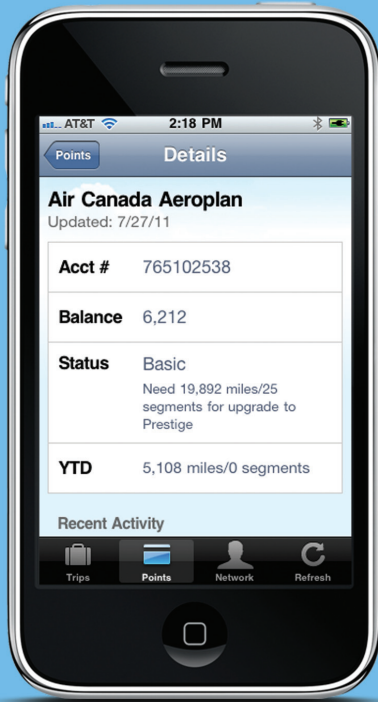

#### BENEFITS

- **Reduce costs** with access to travel alerts, tracking and VIP programs
- **Increase visibility** into leakage for your travelers
- **Empower travelers** with real-time access to important travel data
- **Enhance employee** satisfaction by leveraging a tool they may already be using for personal travel to help them make business travel easier
- **Save time** with all travel data available from a single itinerary that's accessible via mobile

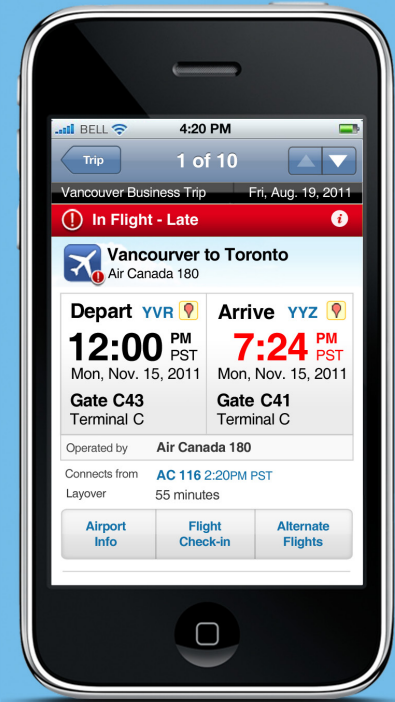

### Point Tracker

Keeps all your loyalty point balances, recent activity and program expiration information in one place

### Stay In The Know

Triplt Pro keeps an eye on all your travel details, alerting you to flight delays, gate changes and more.

### Know before you go

Wouldn't it be nice to always be one step ahead when traveling? With Triplt Pro, instant alerts about flight delays, cancellations, gate changes, baggage claim information and more are sent via e-mail right to your phone. Alert data includes FAA, airport and airline reported data, which is often more timely than what's available from the airlines directly.

### Track all your points

At last, now you can easily track all your frequent travel account information, balances and expirations. Triplt Pro keeps all this information in one place for frequent flyer, rental car, hotel, credit card and loyalty programs.

### Share automatically

With Triplt Pro, automatically share all your travel plans with the people who need to know exactly where you are...and where you're going. When permission is specified, spouses and/or assistants can view all travel details.

### Find alternate flights fast

We'll help you when you need to find another way there, including viewing flight status and open seats. When flights are delayed, or you want to find an early way home, Triplt Pro makes finding an escape route easier and provides you with all the information you need to rebook.

### Travel with privileges

Triplt Pro clients receive a complimentary one-year membership to the Hertz #1 Club Gold VIP car rental program and also enjoy Regus businessworld gold privileges, which provides access to 1,100 business lounges worldwide. That's an additional value of \$660!

## About Concur

Concur is a leading provider of integrated travel and expense management solutions. Concur's adaptable Web-based and mobile solutions help companies and their employees control costs and save time.
